HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent and will be ... all the ... of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets
He respectfully refers to the following
CARD

Having examined the New Patent Shaft Coupling invented by H. B. Hoagland we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw and is therefore easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant and is convenient safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use and with small expense. We have come to the conclusion ... use this new invention ... and recommend ... We consider it far superior to ... patent heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN]

EASTERN DATES TO MAY 30.

Fenian Affairs

BUFFALO, May 30.—The Fenian leaders in council here are investigating the late disaster and adopting measures for reorganization.

ST. ALBANS, May 30.—John Boyle O'Reilly was arrested this morning by Gen. Foster.

MALONE, May 30.—The excitement continues. The Fenians are demoralized but orderly and all anxious to get home. Col. Thompson and Capt. Cline were arrested by the deputy Marshal to-day.

OGDENSBURG, May 30.—All quiet along the line. The Canadian authorities at Prescott have arrested a number of persons supposed to be Fenians.

NEW YORK, May 31.—A Malone special says the escape of Edward J. Maux, the Fenian Head Center, caused precautions against a similar attempt by the remaining prisoners. Captain Harlan, in command of the guard house, states that the first man who moves ten feet beyond the sentry lines will be shot down without mercy. The efforts of the United States troops and Marshal for the recapture of Maux have up to now been futile. The U. S. Marshal has determined to arrest every Fenian officer he can find.

Decoration of Soldiers Graves.

CHICAGO, May 30.—Decoration Day was observed here and at other points throughout the northwest by processions, orations and other customary ceremonies. At Springfield, Peoria and other interior towns business was generally suspended.

Red Cloud's company of braves arrived here to-day and will proceed to Washington to-morrow.

INDIANAPOLIS, May 30.—Decoration day was observed among the principal houses—merchants closing. At Terre Haute, Richmond and other places in the State the day was similarly observed.

COLUMBUS, (Ohio) May 30.—Decoration day was observed here and throughout the towns in the State by the suspension of business, processions to the cemeteries and the usual ceremonies.

MILWAUKEE, May 30.—Decoration day was generally observed in the Northwest with more than the usual interest.

PITTSBURG, May 30.—Decoration day was observed here more than ever before.

DETROIT, May 30.—Memorial Day is being observed throughout the State. Business is generally suspended.

NEW YORK, May 30.

Decoration Day was celebrated here and throughout the East and West. The ceremonies at Washington were very imposing, including an oration by Gen. Logan.

Miscellaneous

NEW YORK, May 30.—Gen. Rosecrans is about to publish an address to the people of the United States on the subject of national policy toward Mexico. He urges the formal declaration by Congress of a policy assuring the Mexican government of the firm sympathy and moral support of our citizens and that their rights shall be protected in whatever legitimate enterprises they may undertake in Mexico.

A passenger who arrived in the *Morro Castle* yesterday from Havana states that on the day of his leaving port, the 25th inst., a rumor was current that the steamer *Upton* had landed her passengers and cargo some days previously in one of the bays on the Northeast depot.

CHICAGO, May 31.—The *Times'* Washington special says the supplemental San Domingo treaty in which the time for ratification is extended to July 1st will be in the Senate to-morrow with a special message from the President giving additional reasons for ratification.

A letter from the Darien Ship Canal expedition received here indicates that Commander Selfridge will shortly complete surveys and he will be obliged to report that he can find no practicable route for a ship canal over the Isthmus of Darien.

The Supervisor of Eastern Pennsylvania says the whisky ring is suppressed in Philadelphia and that 33 distilleries running in his district are all complying with the revenue laws.

POUGHKEEPSIE, May 30.—Warrants were issued for the arrest of Recorder Beckman of Newburg, who is said to be a defaulter in $40,000. He has disappeared.

WASHINGTON, May 30.—Congress is not in session to-day.

Judge Bingham says there is no prospect whatever that time will be found this session for even a short examination of the petitions asking the impeachment of Judges Field and Hoffman. The universal opinion is the matter will die a natural death.

From Cuba

HAVANA, May 30.—The Captain General has received official information that Brigadier ... has captured the son of President Cespedes. Aquibera and Rubalcaba escaped. During the surprise of Cespedes' forces near Guaimaro an American, Col. John C. Lancey, was killed. Gen. Caballa has ordered the destruction of plantations in Camarguay district and a number of the larger are already burned.

Among the prisoners recently captured was the party who killed seven woodcutters near Puerto Principe. De Rodas had seven of the band executed in retaliation.

A telegram from Puerto Principe says it is positively known that Cespedes is trying to escape to the United States but is prevented by his partisans.

Insurrectionists continue to present themselves to the Government forces for pardon in large numbers.

NEW YORK, May 31.—A Havana correspondent writes that the rainy season has set in, in Cuba. Yellow fever has broken out at Nuevitas and Puerto Principe greatly to the consternation of the Spaniards. There are also reports of Cuban successes in several small engagements. The execution of Cuban prisoners by the Spanish authorities continues.

BY THE CABLES.

LONDON, May 30.—The Colonial Office has dispatches from the Canadian authorities representing that the Fenian war is a final failure.

MADRID, May 30.—Prim issued a circular to all Deputies of the Cortes informing them that it is of the utmost importance for them to be in their seats on the 6th of June. He will then explain all the efforts the Government is making to settle the question of the throne and appeal to the Cortes to arrive at some conclusion.

CALIFORNIA

From San Francisco.

SAN FRANCISCO, May 31.—News is received that the schooner *Kuskokwim*, which sailed hence April 2d for Cape Blanco, with material for building a light house at that place, arrived there on the 1... th of May and commenced discharging on the 1... th. During a southwest wind with a heavy sea she dragged anchor, went ashore and bilged. Part of the cargo consisted of lime, which set fire to the vessel, which, with cargo, is a total loss. The *Kuskokwim* was built at ... Bay in 1868, was owned by A. M. Sampson & Bro., San Francisco, and was not insured.

The Boston excursion Pullman Palace train will be brought into the city by the San Jose road and discharge the passengers in front of the Grand Hotel.

The Board of Supervisors granted the Point Lobos railroad franchise last night, the ring voting as a unit for it. The San Francisco, Santa Cruz and Watsonville Railroad Company's street franchise was indefinitely postponed. The First Street, Mission and Ocean Beach Railroad Company's franchise was amended so as to ... for ... one week. The franchise of D. C. McGlynn and others was laid over two weeks.

Apricots from Putah Creek valley reached the market yesterday.

SAN FRANCISCO, May 31.—Wm. S. Manning, ... the small pox ... the small pox ... [illegible] ... of the Board of Health ... not.

Several thousand people congregated at the junction of Market and Montgomery streets to witness the arrival of the Boston excursionists, which the dispatches say will arrive at that point before 10 P. M.

James Sheridan was arrested this evening for an assault with a deadly weapon.

Hylton, of the *Mariposa*, is easy this evening and able to converse through one eye is closed from inflammation. It is thought there is no doubt of his recovery.

There was much freight offering by the Vallejo route that it was found necessary to put the steamer ... on the line. The ... and ... ... of ability to carry all.

The Board of Supervisors granted last evening to John ..., Chas. D. Carey and others the right to lay gas pipes through the city on condition that they supply gas at a rate not to exceed $4 per 1,000 cubic feet. A similar franchise was granted to E. P. McCarty and others of the Petroleum Gas Co., on condition that they supply gas at $3.50 per 1,000. In each instance the franchise extends for a period of 25 years and each company is prohibited from manufacturing gas in that portion of the city bounded by Francisco street on the north, Larkin and Ninth on the west and Brannan street on the south.

On Sunday morning last Wm. Allcock, John Murdock and another man, a butcher, name unknown, left this city in a launch on a fishing excursion and have not since been heard from. It is feared a serious accident has occurred to them.

THE WEST.

A Stockton firm is manufacturing large quantities of machinery for Brigham Young.

The contractors on the Iowa Central Railroad are bound by a provision in their contract to allow no liquor to be sold upon the road or employ any hands using it.

Four or five cases of small pox, says the San Francisco *Bulletin*, have occurred in this city recently. The attending physicians have failed to report any of them to the Health Office. None of them have proved fatal.

Better prospects for fruit were never more apparent than at present in Iowa. Even peaches supposed to have been entirely killed, promise abundantly. The apple, pear and cherry trees are one sheet of bloom, draping open gloriously.

In San Francisco the applications for street railroad franchises, under the general law passed by the last Legislature, are so numerous and conflicting that the Board of Supervisors is obliged to devote special sessions to their consideration. The merely speculative applications for franchises which have no great immediate value and are only sought for future exigency, are easily disposed of; but those which "mean business" excite dispute. Several different parties want to build a railroad to the ocean, by way of Point Lobos toll road, and the owners of this road seem willing to compromise on some terms that will permit the track to be laid without seriously affecting their rights. Property holders along the line are anxious to secure the improvement for the benefit that it will be to the land.

Life in the Rocky Mountains is complicated by whirlwinds. There is a particular valley about half a mile from Deer Lodge City that has more experience of the sort than salubrity requires. One a week has been the recent average. Following a track of not over 300 or 400 yards in width these infuriate zephyrs think nothing of lifting fences and bowlders or of twisting out a log or two from the sides of a finished habitation. The latest occurrence of the sort is rather more surprising in the way of effort. A Mr Elliott quite recently purchased a residence in that Valley of the Winds. On Saturday, a fortnight since, he was seated on the roof of his newly acquired property repairing it. His son was seated on the corner of the structure, the head of the house straddled the roof tree. The whirlwind dipped into the valley—at least that is the phrase they use there about whirlwinds, and they ought to know. The roof having an area of 17x40, containing 1,200 feet of lumber and nailed to heavy log rafters, went up in the air, dropping the boy off the corner but carrying Mr Elliott astride this strangest of conveyances, 40 feet from the ground to a distance of 150 feet. The distance has been measured since Mr. Elliott recovered his equanimity, for he was not injured, although the roof in landing turned a somersault over him and breaking to pieces was scattered in fragments through the valley. "Riches take to themselves wings," even when bolted fast to the Rocky Mountains.

Proceedings in the highest Court of Wyoming Territory have developed very remarkable facts in the heretofore secret history of the Union Pacific railway. It is not the first time that this information has been given to the public, but it has remained for a regular judicial hearing—before a tribunal sitting under the shadow of the Rocky Mountains in a city and a territory which may be said to owe their organized being to the actual construction of the work in which these alleged frauds have been perpetrated—to bring out and lay before the world the apparently clear proofs of all and even of more than all that the wildest rumors have heretofore assumed to charge. The profit of seven millions of dollars realized upon construction—and which would not be an unreasonable amount if it represented all the profit which the enterprise should yield—have been derived wholly without reference to the value of the land grant. The road has been actually built and at this profit from the proceeds of the subsidy bonds from the Treasury and of the mortgage bonds of the corporation itself. The immense landed domain of the company still remains almost wholly untouched. Its value will yet swell the profits of the corporation ... of its inner rings to more than three times seven millions. We are wiser since that vast endowment was conferred. We have discovered that the land grant alone would have paid for the work. We might not, probably would not have discovered it except by the actual experiment precisely as it has been made. But in the light of the information which we have paid this splendid price for, it has become clear that a second or even if need be a third transcontinental railway can be built without any other aid from the Government than a handsome land grant affords. Upon this basis the Northern Pacific is now to be built and will be completed within five years from date. Probably a third line by a southern route will also be well under way on the same basis long before that period ends.

In a recently published book, called "The Poetry of the Period," the author, Mr Alfred Austin, is very severe in his criticism upon Walt Whitman and his grotesque, ungrammatical and repulsive rhapsodies. He quotes this passage:—

All these States compact—every square mile of these States without excepting a particle.
O land! O all so dear to me—what you are (whatever it is)
I become a part of that, whatever it is.
Southward there I go screaming with wings slowly flapping with the myriads of gulls wintering along the coast of Florida.

and then remarks: "I confess I think the picture not an inaccurate one. Mr Walt Whitman screaming and with wings slowly flapping, realizes my notion of him in his poetical condition—his gull of Mississippi as opposed to the swan of Avon as perfectly as language could well present it to us."

Gov. Shaffer, of Utah, writes that unless the House bill or some kindred measure for the abolition of polygamy shall be adopted by Congress it will be useless to attempt to establish a just government for the people there." Evidently the Governor has little faith in the moral suasion which our stock philanthropists, pseudo humanitarians and liberal statesmen are so confident ... in reckoning upon for the extirpation of that ... relic of barbarism. Why don't they agitate ... removal from office? If he stays ... [illegible] ... especially if they don't ... [illegible]

Rev. ... H. ..., at the Church of the ... in New York, discoursed on a recent Sunday on "Insanity and Crime," and incidentally on the McFarland case. He took the position, bold and startling because coming from the pulpit, that the violator of the sanctity of marriage should be killed. Said he: "The man, whoever he is and whatever his motive, who dares to step between man and wife, let him die the death." Mr. Hepworth denounces the present marriage service as a lie, and demanded that the sexes shall stand before the altar as equals.

WEDNESDAY MORNING JUNE 1 1870

A New Furor

The Democratic leaders at the instigation of a few persons who have private interests to subserve and revenges to gratify are making a desperate endeavor to change the aspects of the campaign by lugging into it new railroad projects and complications This is the last desperate effort of men who, having really no principles or policy to present for the consideration of the people want to win *somehow* and hope to do it by distracting the public mind with a great uproar about something that is started expressly for the occasion

The final effort is made by a general assault on Senator Williams for his alleged action in railroad matters Republicans will not allow themselves to be misled by this new machination of their adversaries Senator Williams who is arraigned for changing the direction of the Oregon branch railroad so as to make it come through Rogue river valley instead of through the lands of the Eugene military road, can answer for himself on this charge. That is his business, and not the business of the Republican party He states that he is willing to meet the people of Oregon on that question. Let him do so. The Republican party exists for political objects It desires to secure the triumph of its principles Men with it are nothing It purposes to carry the election, if possible, and choose a Senator afterwards But no Republican who consults his judgment will be led away from his party allegiance and principles by allegations against Senator Williams or any one else. That somebody don t like what Senator Williams has done would be a very poor excuse for throwing the State and the Legislature into the hands of the Democratic party

It is alleged that Senator Williams was committed to the Eugene military road route for a railroad from the Central Pacific into Oregon. It is alleged further, that he changed the route to Rogue river valley "at the instigation of Ben Holladay ' The *Herald*, a paper that has been hunting desperately for "new issues" ever since it went back on the "vital eighth resolution, says "the OREGONIAN dares not deny that Senator Williams, at the dictation of Ben Holladay, altered the Humboldt bill." The OREGONIAN does "dare to deny" this very thing, for it *knows* that the allegation is not true What Williams did, he did entirely upon his own motion He states that his action was dictated wholly by what he conceived to be the best interest of the whole State. He ascertained that the Central Pacific did not intend to push their railroad north from Marysville so as to connect with the Oregon and California road in Rogue river valley and thus give the Southern part of the State eastern and southern railroad connections. Their idea was to build that road through the Pitt river country to a connection with their other line, cut off southern Oregon, render the Oregon and California road valueless, and thus get control of the entire railroad system of Oregon as they now have of Nevada and California. Then a road through from Eugene to Astoria, leaving Portland "out in the cold," would complete the scheme, and the Central Pacific Company would have Oregon wholly within its grasp. Senator Williams states that he penetrated this design and thought it his duty to his State to defeat it. Mr. Holladay, and his agents at New York and Washington, expected the bill to pass so as to establish the road on the Eugene route. When therefore it was telegraphed to Holladay from New York that the other route had been designated he did not comprehend the movement and telegraphed back for more specific information respecting it. There are many gentlemen in this city who have seen these telegrams and know that these statements about them are literally true. Senator Williams therefore acted on his own judgment exclusively. He can answer for himself in the matter. He is not the Republican party, and therefore if everything alleged against him in this affair, and ten times more, were true, it would be no excuse for any Republican to vote with the Democrats.

Were it not for the near approach of the election this affair would scarcely attract a moment's attention That the course taken in it is a political move made in the interest of the Democratic party, is obvious from the part the *Herald* is acting in the premises The same thing is also obvious from the fact that Congressman Smith is paraded as an authority to support certain statements which it is hoped can be made to tell in favor of his party in the election. Mr. Smith can hardly be said to be watching the political contest in this State with indifference Anything that he could do to embarrass the Republican party, especially at this time, he would do eagerly. He is hardly the man to whom Republicans would look for guidance in their political actions Hence it is not at all in order for any one to quote him as an authority for Republicans to be guided by

Stripped of all its coloring the proposition which these gentlemen make to Republicans is simply this "We have made certain charges against Senator Williams. Now abandon your party allegiance and help us to carry the State and elect a Senator " This invitation, so kindly made will not be accepted Republicans will push on and carry the State and the Legislature if they can. Senator Williams can take care of himself Republicans who value their principles cannot be prevailed on to sacrifice them in such a way After the election this furor will speedily die out When the occasion for which it serves passes away the opposition will think no more of it

New Tactics

Republicans should be warned not to be misled by the new tactics of the opposition The most desperate efforts are now being made to withdraw attention from the real issues of the campaign, and to make the fight on subjects which either do not belong to politics, or are of very little importance The opposition would be glad to get rid of their platform and not hear of it again during the campaign They want nothing more said upon the issues made up between the two parties in their respective platforms On those issues they know the Republicans have a decided advantage They know that if the real principles which characterize the two parties are kept steadily in view and the people vote upon them according to their convictions, there is every probability of a Democratic defeat Therefore they are making every possible exertion to divert public attention from party issues and principles, and gain an advantage by springing at the last hour whatever thing they think will serve their turn. It is only necessary for Republicans to consult their judgment and refuse to be led away from the real objects for which their party exists and contends

A Manifest Duty

We are informed that there are a few and we know the number to be very few—professed Republicans in this county who are so zealously in favor of this man or opposed to that man for United States Senator that they propose to either withhold their votes from the Republican nominees for the Legislature or to vote squarely against them We think we know all these men and while we do not believe they are numerous enough to do any great harm we cannot refrain from urging upon all who have the success of the Republican party at heart to desist from such efforts looking to the election or defeat of any man for U S Senator as will endanger the election of Republican members of the Legislature It is hardly worth while to contend over such a bone within the Republican ranks, if such contention will inevitably result in giving the bone to the Democracy If any man desires the election of Democratic members for the purpose of securing the election eventually, of a Democratic U S Senator that is his business, and we have nothing to say But if he simply wants to defeat our nominees because he believes that if elected they will vote for or against any particular Republican, then his conduct affects the Republican party of the State, and does the whole party a wrong, because his factiousness within the party, may defeat the whole party where, otherwise the party might succeed and be able to elect some Republican other than the one for or against whom the fight is made Are there any Republicans so anxious to defeat any particular man within their own party as to cast the power of the State into the hands of the Democracy and thereby ensure the election of a Democratic Senator? We trust not and, without any purpose of bragging for effect, we state our belief that there are not enough even of professed Republicans in this county to effect the defeat of our ticket, by uniting with the Democracy Let all Republicans who are such upon principle and not for the political gain to be had from the organization, come up now to the work Close up the ranks and march to victory *for the party*, and not for men

The Union Pacific Coming Westward.

The Union Pacific Railroad Company, it is announced on good authority, contemplate the extension of their road westward, so as to come into California as well as into Oregon, by an independent line. The San Francisco *Bulletin* states that a corps of Union Pacific engineers is now in the northeastern part of California, surveying for a route from Salt Lake through Madeline Pass, into Big Valley This pass opens across the Sierra Nevada range from Susanville From Madeline Plains the route through northern California and into Southern Oregon is described as not difficult The *Bulletin* says that "the survey now being made is probably only one of several preliminary to selecting a route ostensibly aiming at Oregon." The Yreka *Journal* expresses the belief that the Union Pacific will be extended by this route and made to connect both with Oregon and California

With these facts in view it is easy to see that there are strong probabilities of railroad connections with the East through the southern part of our State That it is ultimately the design of the Union Pacific Company to push westward and enter California and Oregon, there can scarcely be a doubt. The *Bulletin*, which is a sagacious observer of all these movements, says "It is evident that the two great corporations which built the first Pacific railroad will be keen rivals for the growing traffic west of the Rocky Mountains, and that their rivalry is to be the means of developing more rapidly large and important regions adjacent to California and Oregon."

In this view of the situation the idea of a grant for a road, having eastern connections, to come in at Rogue river valley, begins to develop itself. Such a road would accommodate all western and southern Oregon, and would be as short a route towards the East as any other,—unless it were the route from the Columbia river to Salt Lake. It is thought by many that this route through southern Oregon is the true one for a connection with the line across the continent, though others think differently, according to their ideas of the situation and their interest in the matter

Editorial Notes.

Grasshopper Jim has abandoned his own signature, and gone to writing letters for his organ, which he signs, "German Democrat " His versatility in signatures is quite remarkable, though his compositions all read alike

The bullion product of Montana, so the press of that Territory reports, cannot fall short this year of $20,000,000. This belief is founded upon former yields, the supply of water and the number of new mines opened It is stated that there is hardly an idle man in the mining region

From information carefully gathered from almost all parts of California it appears that the prospects are gloomy for even half a harvest. Newspapers there say that from all parts of the State they gather the same unfavorable intelligence The drought is more severe and will cause greater loss than has been experienced for several years

It takes your Democratic editor of the baser sort to fabricate stories and then swear persistently that they are true One of these fictions is that "Ben Holladay boasts that he will spend one hundred thousand dollars to carry the election ' This story has been repeated so often that some of those who are circulating it probably begin to flatter themselves that they are making somebody believe it

Some of the gentlemen who are interested in the military road land grant from Eugene City, seem to be much exercised because it is proposed to bring in the branch railroad from the Central Pacific through Rogue river valley instead of running it through their lands and carrying up the price of the same to fifteen or twenty dollars an acre This to be plain, is the secret spring of most of the campaign noise on the new railroad issue

We notice that little O J Mason is on the boards for a Democratic speech this (Wednesday) evening Mr Mason wanted the Republicans to give him something, ' but they could not appreciate his talents At this he became enraged, said that he had been in the Republican party here for six years and had got nothing yet, and he guessed he had better join the Democrats ' And this is how Mr Mason comes to be found on the Democratic platform

The State of Nevada is completely under the domination of the Central Pacific railroad company That company absolutely *owns* the State. In 1868 it elected a man named Fitch to Congress to do its work It bought votes for him with its coin, and he, in turn, does the bidding of the corporation whose instrument he is. We speak of Fitch in this way because we notice that a letter of his has got into print in which he says he is going to punish an Oregon Senator for having done a thing that the Central Pacific company don't like. Mr Fitch as the paid agent of the great corporation which controls his State, may as well confine his attention to affairs at home

---

People in these days at least in this country are rather disposed to laugh at duels—and in truth they are most of them rather ridiculous A funny account of one we find in the *Logansport* (Ind) *Journal* The principals were so frightened that it was only by the most arduous exertions that the seconds could get them to the ground They appeared at last looking dejected But then came the doctor also He opened his case of surgical instruments There were the saws and knives and tourniquets and and lint all things necessary for amputation This looked like business and one of the combatants sank limp and trembling to the ground He said that he felt quite ill—he had a kind of faintness or ' all goneness or some variety of syncope, we suppose Upon this his antagonist—he would have been his antagonist if there had been any fighting—cried out that he "wouldn t shoot a sick man' and all was bloodlessly over It might not be much to the credit of human courage, but we wish that every man who goes on the field to fight a duel might be taken with the same kind of falling sickness. There isn t much dueling to put down, what there is left of the system may be most effectually suppressed by simply making it ridiculous

An additional lot of those handsome suits worn by everybody both heavy and light weight, was received by Kohn & Fishel, No 91 Front street. They are equal to the best custom made and pleasing to all men that wear them They also received an extra fine lot of striped calico shirts and Star white shirt Their stock in clothing is the largest and finest in Oregon and sold at extreme low prices

ADULTERATED COAL OIL —We have already considerable to say regarding the adulteration of coal oil but will reproduce the following the *Bulletin* of May 23d The frequency of accidents by the upsetting and explosion of oil lamps should operate as a caution to all to be extremely careful in handling them coal oil first came into use as an illuminating agent, people were taught that it was about harmless as water In its pure state it is unquestionably quite safe but most of that which is now is so adulterated with other combustibles, that it is as dangerous as camphine fluids, that it is as dangerous as fires caused by the use of a coal oil lamp and six or eight in this city within a few years have been to their graves by the same means The of adulterating this oil till it becomes as able as naptha or benzine is most abominable The wretches who pursue it owe at least a duty to humanity they ought to label their as a druggist designates poison They ought to their customers You ask for pure oil will sell you this which is a dangerous mixture careful how you use it, keep the lamps of your children s hands Of course men who willing to place the lives and property of in jeopardy, will not need much urging to them to be so candid they are so dishonest. However the fear of the law furnishes them motives for fair dealing in its absence they would never enter There ought to be and probably is, some provided by which such dastardly cheats may be punished and after a few more lives have been sacrificed to their insatiable avarice the experiment may be tried and if is not found to suit their case one may be for it We have a Market Inspector duty it is to prevent the sale of bad meats other provisions and it might be well to have Inspector of Burning fluids whose province to prevent the sale of naptha camphene, or nitro glycerine under the delusive of coal oil At one time the adulterated was readily detected and there are certain by which it may yet be discovered, but they always convenient and purchasers must confidence in the seller A man who ever sold a gallon or a cask of a dangerous fluid which he called coal oil, and of such a catastrophe as that which Miss Platter and Miss Seiglemayer, ought almost like a murderer like an assassin stabbed to the heart a fellow being who who struck the fatal blow

CATHOLIC PICNIC —The Catholic Sunday of this city and the Catholic Library and Doctrine Society held their annual picnic farm of Mr Bybee on Sauvie's Island, The procession formed at the Library on Stark street, at 8 o clock A M., and, by the 23d Infantry Band, marched to Julia lying at the wharf of the O. S. Company and were conveyed to the grounds steamer in charge of Capt. Dierdorff The selected was a beautiful grove in the rear Mr. Bybee s residence, upon arriving at which crowd joined in the various festivities of occasion with the utmost relish and with manifestation of good feeling The managers of the societies controlling the exercises of day, exerted every energy to render the occasion of pleasure and enjoyment to the little and all others in attendance General good prevailed and we venture to say that no fraught with more enjoyment has taken in our community At five in the afternoon entire party were on board for the return, and home at seven well pleased with all the and arrangements of the happy occasion The best of order and propriety were generally observed and we feel assured that no who attended, at all regretted it but were in humor with themselves and all mankind having participated in the cheerful scenes of day

PUNISHMENT FOR BURGLARY —Whatever is the wrong of long and short terms of imprisonment for most crimes burglary ought to stand by itself. It is a profession, usually adopted by a early and followed for life. The confirmed ought to be imprisoned for life on his first and it is easy enough to find out the professional from the drunken loafer who may happen to have committed house robbery. The burglar is the greatest pest of city life. He keeps us uneasy, and puts us to great expense in guarding against him He destroys the peace of an undefended household We could well afford to be taxed to support him in prison rather than be at the expense of watching for his advent in our homes. We are not very bloodthirsty about criminals, but we never hear that a burglar has been killed in attacking a house without delight He is and our laws are altogether too lenient with him and our judges too tender Every burglar caught should be chained up like a mad dog or rather be put at hard labor for life. Vigorous treatment of this sort for a few years would discourage the profession Now all our cities are full of the scoundrels who are perfectly well known to the police and who know that, if they are not actually protected they will get off with slight punishment if caught

CHINESE ARRIVAL —The ship *Hertha* of Hamburg, Capt Schreiber in command discharged her cargo of 303 Chinese passengers at the wharf of Messrs Estes & Stimson yesterday forenoon Out of this number 32 are boys all the rest being men. Deputy Collector Hoyt assisted by Mr Gray and several selected officers made a very thorough examination of the baggage of the Chinamen before they were permitted to land but succeeded in finding only a small quantity of smuggled goods The conduct of the passengers and crew was good The *Hertha* is a large ship and is Hamburg We are not advised as to her future destination She left Hong Kong for this port on the 19th of April She was towed up the Columbia river by the tug *Astoria* Capt

ABOUT DOGS.—The paragraph yesterday concerning the wants of this community in respect to dogs, seems to be pretty generally endorsed. That our canine population is too numerous by more than one-half is a fact obvious to every unbiased mind. The season of the year most conducive to hydrophobia is coming on, and it is highly important to keep a close watch upon the dogs. Almost every family has a cur or two snarling around their premises, and some we are told have as high as six or seven. These delectable animals, the most of which are not worth the bones they gnaw at, are a growing nuisance.

PIXLEY SISTERS.—Again last evening a very respectable audience greeted the Pixley Sisters at Philharmonic Hall. An amusing comedy, "Crossing the Line," opened the evening's entertainment, very well rendered by Misses Annie and Minnie Pixley, Messrs. Dennis, Ward and Gregory. The "Grand Interlude" opened with a sweet duet by Misses Annie and Minnie, "Kiss Me Good Night," which called for unfeigned applause. The remainder of the programme was equally as well rendered. To-night we hope to see the hall crowded, on the occasion of the last entertainment of the engagement.

PROGRAMME.—The programme by the 23d Infantry Band for this evening, at 6:30, at the plaza, is as follows:

1. Milanollo March.
2. Soldaten Polka.
3. Cavatina from the Opera Attila—*Verdi*.
4. Allied Armies Quadrille—*Jullien*.
5. Polonaise, Le Chaperon Blanca.
6. Hungarian Melody.
7. Song. You don't know how we miss you.
8. Scotch Galopade.

PILE DRIVING.—The pile driving was yesterday changed from above the bridge to below it, at East Portland, and the driving of piles continued on down the line of the survey of the Oregon and California Railroad. Workmen were employed at the upper end in laying the stringers and preparing for the timbers to receive the track of the railroad. This work will place the track on a straight line, above high water mark.

U. S. CIRCUIT COURT—DEADY J.—May 30th, 1870.—J. B. Fitch vs. Geo. Durand, et al; for possession of real property, exceptions to findings of court overruled, and judgement for possession and for detention of property, entered.

CARGO OF THE HERMAN DOCTOR.—Mr. Peter T. Barclay, U. S. Storekeeper at this port, furnishes the following manifest of the Bremen bark, *Herman Doctor*, now due at this port from Hongkong, and daily expected: 5,527 bags rice, each 50 lbs., 212 cases oil, 115 bales paper, 720 pkgs preserved vegetables, 166 bags sugar, 155 jars soy, 22 cases ginger, 423 cases China ware, 458 pkgs sundries.

A BUSY THRONG.—The wharves along the front of this city, yesterday, presented a very lively scene indeed. Wish we had such scenes every day. There were along the docks three steamships, the *Geo. S. Wright*, laid up however, the *Live Yankee*, German Bark *Hertha*, tugs *Astoria*, *Josie McNear*, and sundry small crafts.

OPENING OF THE STRAWBERRY FESTIVAL SEASON.—The Ladies' Church Aid Society connected with the First M. E. Church of this city, will give their first Strawberry and Ice Cream Sociable for this season in the basement of the church, corner of Taylor and Third streets, on Friday evening next.

SORGHUM SYRUP.—There is on the wharf for shipment up the Columbia River, this morning, to Messrs Brown & Bean, a machine for crushing sorghum cane, previous to making syrup. We infer from this that the farmers up there intend to use considerable of the real domestic article in future.

NEW SCHOONER.—The schooner *Bell* has been placed upon the route between this place and Tillamook Bay, in charge of Capt. Clifford. The first trip was made to this port arriving yesterday morning, in three days. She is lying at Everding & Beebe's wharf, foot of Taylor street.

PUBLIC SPEAKING.—J. W. Johnson, Esq., will make a political speech at Milwaukie, against the repudiation Democracy, on Thursday, June 2d, at 2 o'clock P. M. Mr. Johnson is an effective and agreeable speaker, and we hope the people will turn out *en masse* and hear him.

PERSONAL.—Mr. Joseph M. Wulf, agent for the book "River of the West," by Mrs. F. F. Victor, leaves this morning on a canvass of Eastern Oregon and Idaho Territory.

POLITICAL NOTES.

Susan B. Anthony says the Democracy of Illinois will put a woman suffrage plank in their next platform, in anticipation of which the Republicans are "trembling in their boots;" so says Susan.

The democratic press throughout the State of Connecticut, and the address put forth by the democratic State committee during the campaign, denied that the Republican State officials had reduced the State debt. The papers which published this atrocious falsehood did penance the other day by publishing the Governor's message, which showed that the reduction claimed by the Republicans had been made. The apology was tardy, and would have been more graceful had it been made sooner, but still it has been made.

The Paris *Marseillaise* prints this little fable, apropos of the French election:

> December second 'twas my luck to meet
> A thief with pistols in a lonely street,
> He grabbed my watch, and then said he to me,
> "Your watch is under my protection—see!
> I'll keep it, too,—my uncle was a Swiss,
> And I can regulate it—just like this—
> Better than you can. How the idiot stares!
> Besides, I wish to leave it to my heirs.
> But such is my regard for you, I'd know
> Whether you want to have it fast or slow?"
> To this plebiscitum I'd nought to say,—
> Do likewise, Frenchmen, on the 8th of May!

Don Piatt thus describes the effect of Senator Chandler's recent speech: "The valorous old Senator smote the lion on the snout until he quailed. He shook him by the mane until his old bones rattled. He twisted his tail until the vile beast howled with anguish. All the while the American bald-headed eagle soared and screamed, and screamed and soared, holding aloft forked lightning and the star-spangled banner. The conciliatory smile passed for once from the face of the Vice President. He sat like Mars, and his majestic brows, corrugated, resembled a vulcanized roof in a thunder storm. Fear settled like an old hen in the diplomatic gallery, where Mr. Thornton's first attache, and two old ladies of German origin, trembled and shook until their shawls fell off."

The Cincinnati *Enquirer* "agrees with Hon. Chas. A. Eldredge, of Wisconsin, that the word 'loyal' is a word to be despised and hated." No doubt of it. The press of that ilk agreed in hating not only the word, but the million of men who represented it, during the entire rebellion. To be loyal to the Constitution and the Union, was to affront the Democratic sentiment of the country; and the "Hon. Chas. A. Eldredge," in giving expression to his sentiments on the subject now, only repeats the old inspiration, which would have manifested itself on the side of the rebels, had it not been restrained by fear. The party naturally hates everything like a loyal feeling among the people for the old flag and the old cause. But the "despised and hated word" still lives, and will long live, to animate the patriotism of the country wherever it shall be threatened with disruption or calamity. It is a solid old word, and needs no dictionary to explain its meaning to the people.

The Washington correspondence of a New York journal makes known a very interesting fact. The writer had been permitted to examine a number of private letters received by Senators from eminent English statesmen, and all of which evinced an earnest desire for an early and satisfactory adjustment of our Alabama claims. One letter, from Mr. Gladstone, said substantially this: "Canada was gravitating toward this country so fast that the mother country was fully reconciled to the idea of cutting loose from her. If Canada had a mind to ask for independence through her Parliament, England would yield a ready assent. The English government had been gradually cutting off the supplies from Canada solely with the view to her annexation to the United States, and there was now a powerful influence at work in the Canadian Parliament to urge on an appeal for self-government, which, although it meant annexation, the English government was more than willing to grant."

Mr. Robert Aiken, of Chicago, has written a local drama called "The Witches of New York," which he will soon bring out at Wood's Museum. The play will introduce fac similes of the interiors of some of the most famous, or infamous, gaming, dance and supper houses of the metropolis.

OREGON.

Rev. J. H. Wilbur, of this city, has gone to Simcoe to resume charge of the Indian reservation.

L. O. Stearns has been appointed by Gov. Woods, Judge of Baker county, in place of L. L. McArthur, resigned.

Rev. P. S. Knight, of Salem, lectured at the Dalles last Thursday and Friday evenings, on "Church Etiquette."

Salem items from the *Statesman*: Several Eastern people have recently arrived to visit friends or settle down......The stone work on the hotel is almost completed......A meeting is called to make preliminary arrangements for celebrating the 4th of July.

The population of Ochoco valley numbers about one hundred. They have from six to eight thousand acres of land fenced in; from four to five thousand head of stock; a saw mill, two stores and two blacksmith shops, and a school, averaging an attendance of about fifteen.

The Dallas *Republican* says: "The Yamhill and Ocean Beach Wagon Road is now open for the accommodation of the traveling public. By this route the ocean beach can be reached by wagons and is the only point that can be so driven to on the coast of Oregon. The resort is a very fine one for summer excursionists."

Says the *Mountaineer*: Mr. Ad. Edgar, proprietor of the Dalles and Canyon City Stage Line, informs us that he passed over the Blue Mountains, on the Military Road, in a buggy some two weeks ago, and found the road in a splendid condition. The stages will commence running on this route to Boise City on the first of July.

A mass convention was held in Union county, on the 28th ult, and the following People's ticket was put in nomination: For Representative, D. R. Benson; County Judge, S. Alberson; Clerk, W. T. Wright; Commissioners, F. W. Duncan and Jas. E. Woodhull; Sheriff, Isaac Glenn; Treasurer, P. A. Mahaffey; School Superintendent, —— Rouse; Assessor, John McCall. The convention was composed of men of both parties—taxpayers who desire to see if they cannot redeem the county from the misrule of Democracy which levies an annual tax of twenty-five mills on the dollar and constantly runs the county in debt.

Parties going up the Columbia and stopping at The Dalles should not fail to stop at the Umatilla House, Handly & Sinnott, Proprietors, it being the best and only First Class House in the city.

B. L. STONE gets new supplies of Jewelry, Watches, Chains, Clocks, Silver Plate, Spoons, Butter Knives, Napkin Rings, &c., &c., by every steamer, which he proposes to sell so cheap that no one need be without those articles.

Infection in the Air.

Experimental chemists have repeatedly analyzed the air at unhealthy seasons, in the hope of detecting the invisible virus which produces epidemic disease. They have not yet discovered it, and scarcely any two of them agree as to its nature. This is of little consequence. It is sufficient to know that this poisonous principle exists, and that a safeguard against its insidious influence has been provided. In the spring and early summer, when fever and ague, remittent fever and other periodical diseases of that class are prevalent, it is only necessary to fortify the system with a course of Hostetter's Stomach Bitters to escape them. If this precaution has been neglected, which it never ought to be in any district liable to such visitations, and if the paroxysms of malarious fever have actually commenced, and may always be checked and broken up by a course of that powerful vegetable tonic and alterative. Quinine was once considered the only specific for chills and fevers; but it is now generally admitted that this nauseous alkaloid is a dangerous medicine, and that its secondary effects are more to be dreaded that any form of intermittent fever. It is simply a tremendous astringent. It does not touch the disordered liver, or regulate the bowels, or in any way improve the condition of the animal fluids. Hostetter's Bitters, on the other hand, in addition to being a better and safer tonic than any preparation of quinine, has a balsamic effect upon the whole system. It is aperient and anti-bilious, as well as directly invigorating, and purifies the secretions as well as regulates the secretive organs. It stimulates the appetite, strengthens the stomach, soothes the nerves, promotes healthful perspiration, and induces quiet sleep. As a stomachic it has no rival. Cases of indigestion that no other tonic seems capable of alleviating, are cured in a few weeks by its regular use.

G. VENARD,
CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS. 595 AND 597 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.
The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commends here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.
BEWARE OF COUNTERFEITS.

Mules and Salmon!

WE'VE GOT 'EM—THEM MULES FROM YAMHILL—they're "busters"—4 years old and 16 hands high. $350 would procure a warrantee deed from us. They're mixed gender, they are inbreed—were sired in Yamhill and damed by us. No pedigree is necessary, as they are of long ears standing in this country. They're all "hoss" to work, male kind and indulgent uncles and aunts, but have never been known to rear large families themselves, and as musicians they exhibit a total lack of culture. Also a fresh lot of

The White Men's Party

[illegible] OF THE DELAWARE FIZZLE—NO [illegible] HELD

[illegible] Wilmington [illegible] Commercial May 8 — For several weeks past it all has been the [illegible] of this State for a State Mass [illegible] of white men to organize a White Man's Party which shall absorb the Democracy and that large number of [illegible] Democrats [illegible] loose outside their party

The Convention it was said was to be held at Dover and bills announcing the fact were sent to two of the anti-Sanlsbury Democrats there to be put up but said bills are believed to be as yet peacefully slumbering in the desks of the gentlemen aforesaid and Dover has not as yet had official notice of the honor intended to be conferred upon her

[illegible] convention expecting to have all the White Men of the State [illegible] the railroad to make a [illegible] for carrying the host and the company accordingly issued half tickets [illegible] on the morning train [illegible] for the afternoon train which stops at Harrington to continue on to Seaford all this that the accouchement of the new party might come off comfortably and with eclat

The train started from Wilmington with three enthusiastic "white men" without regard to party and one enthusiastic Democrat without regard to color who proclaimed himself a looker on

New Castle contributed another delegate

At Middletown it was expected that a large delegation would come on and everybody's head was out of the window looking for the waiting throng of white men. When the train stopped one individual quietly stepped on and that was all. This was surprising nay alarming. The Middleton Democracy have for years had but one cause for pride and congratulation and that was that they "weren't niggers" and if they failed to respond to such a call who would respond?

Well, there's hope in Townsend let us wait till we get to Townsend. Samuel of that name is the Grand Mogul of the new movement and *he* will bring a crowd

The train stopped and our venerable friend Samuel and his brother John and another man got aboard. "Only this and nothing more"

"Things" is serious now and the nine white men looked into each other's eyes with alarm—but stop there is yet hope. Smyrna lies ahead of them and has not all the white flesh of Smyrna been made to creep by the extracts recently read there from a French book by Senator Bayard? Smyrna will doubtless do its duty. The train stops and one man gets on to represent Smyrna and Clayton too

This completes the delegates and nobody says anything for a mile or two. Somebody suggests that the upper portion of the State is no longer much of a place for raising peaches, and all the "delegates" doubtless quietly think with a bitter pang that it is a poorer place still for raising white men and say —"wait till the train from down country comes"

We all get to Dover and a curious crowd of boys is at the depot to see the ghostly array of white men, doubtless expecting to see a procession uniformed in winding sheets. Seeing ten men in ordinary garb get off the juveniles turned away disgusted

Dover wore its usual Sunday like aspect and the imperturbable calm was not disturbed by the convention. It appeared that all the Democrats had concluded to stay in their houses, and this of course left the streets of the town almost deserted as the group of white men went quietly along painfully conscious of the fact that many a pair of eyes were looking through the blinds at them

The *Delawarian* office had out no banners the State House doors were not open. Governor Saulsbury did not make his appearance on the streets, and brother Eli quietly watched the thing from his den on the corner of the State House while not an ex member of the Legislature was to be found in the town.

Presently the train from below arrived, and with it from thirteen to fifteen more "white men" and that was all

The fifteen looked at the ten, and the ten looked at the fifteen, and then all looked at Sam Townsend, and then all gazed on the ground. Presently some bold man said "Let's go home" and as soon as opportunity offered they went

And thus ended the White Man's Convention at Dover

Sam Townsend says the white men of Delaware will live to regret their apathy yesterday

From Ocean to Ocean

These are days of great Railroad projects and achievements. One of the most notable events of the time as illustrating the progress of the consolidation of railway power in a few hands, occurred at Cleveland, Ohio, a few days since in the election of Directors of the Lake Shore line. In this election Commodore Vanderbilt and his associates are understood to have effected a combination offensive and defensive, from New York to Omaha with possible connections at no distant day to the Pacific ocean. The leading Eastern journals unite in regarding the event as one of very great importance foreshadowing a programme of consolidation of vast and far reaching magnitude. The New York *Herald* says

The plans of the great Railroad King, Commodore Vanderbilt are in process of slow but steady development. The Lake Shore election at Cleveland, yesterday is another step toward a grand consolidation of railroads from the Atlantic to the Pacific coast. There are, it is true, two corporations but in reality now only one great controlling management, from St John's Park, New York to Chicago. Yesterday's Lake Shore election consummated this great result. The Lake Shore election was in the interest of the Vanderbilt party. Mr Torrance the Commodore's son in law will now return from Europe and assume the management in detail of the Lake Shore Road.

The next step in the Vanderbilt programme will probably take place in June by placing the Rock Island, Northwestern, and St Paul roads the three great railway corporations of the West under one management, that of Commodore Vanderbilt. This will form a virtual consolidation of these three lines, practically consolidating them with the New York Central and Lake Shore

If Vanderbilt and his party have fully determined upon consummating this scheme it is folly for the public to shut their eyes to the future or to argue that it cannot be carried out, for the Commodore has illimitable resources in cash credit power influence and an indomitable iron will. The notion of 33 per cent dividend on New York Central was laughed at when first broached as a visionary suggestion. The Commodore however has paid not only 33 per cent but a scrip dividend of over 100 per cent on New York Central and Hudson River and is now paying 8 per cent cash dividend, both on the scrip and original stock

The San Francisco *Bulletin* commenting on this says: If Vanderbilt succeeds in his next move the control of a continuous line from New York to Omaha what then? Will he push his conquests to the Pacific ocean? If he can form combinations east of the Missouri why not west? We are becoming interested spectators in the drama of railway conquests

---

There was at least one sensible [illegible] in the Woman's Rights Convention held in New York and that was a speech suggesting that young women should be educated to some useful business whereby they could earn an independent living instead of devoting their whole time to what are called domestic duties and accomplishments

---

Alf Burnett says there is one noticeable feature in the Mormon Church: they never pass the hat around. Their tithing system supports their poor builds their churches, and defrays the expenses of importing converts from any part of the world

Private business affairs and ill health have compelled Mr Sheppard to resign his position as managing editor of the *Times*. He is succeeded by Mr Louis J Jennings a thorough and accomplished journalist, who began his acquaintance with this country as American correspondent of the London *Times*. In this capacity he succeeded Dr Mackay and by his refutations of the libels of his predecessor earned the esteem and good will of many of our prominent citizens including the late Governor Raymond whose friendship for Mr Jennings and respect for the abilities of the latter grew strongly until the day of Mr Raymond's death. Mr Jennings will give to the *Times* a high tone a broad and liberal policy and the inspiration of a first class journalist

FINANCE AND COMMERCE

Portland Tuesday May 31 1870

There have been no Gold telegrams for several days the latest quotation received 114¼

Legal Tenders quotable at 87½@88½

Gold has averaged for some weeks about 114½ as compared with currency and from present appearances may remain at about that figure for some time, but many causes are at work which must result in bringing coin and paper money to reciprocal value. When that point is reached and maintained it will forever dispose of all questions about the payment of bonds in specie. At present these bonds are worth from ten to twelve per cent premium as compared with the currency and the Secretary of the Treasury has to pay this premium in making his purchases to reduce the debt. As an offset to this he receives on sales of gold a greater premium so that the nation gains by the transaction to the extent of the difference between the two premiums. Of course the nearer the bonds come to maturity, the less premium they will command and on the final pay day will be redeemable at their face at the Treasury. The sales of Gold have elevated the public credit and seriously crippled Gold gambling for Wall street has not yet recovered from the effects of Black Friday. This has resulted in restoring health to the market and greater safety to business transactions and instead of there being a scarcity of money in the country there is actually enough for all legitimate business purposes and, in the Eastern States there is a large balance at present unused which formerly was used on call in the interest of speculation

An important decision has recently been rendered by Judge Brady of the New York State Supreme Court. The Cashier of the State National Bank of Boston certified a check for P H Cook for $125 000. Subsequently the bank discovered that the drawer had not sufficient deposits to pay the check and contested its liability for the payment. Judge Brady decided that the act of the agent is the act of the principal that the Cashier of the bank is virtually the bank and that consequently the latter is responsible for the certification of the former. Judge Brady further argued "that the certification of checks for another on several occasions by the cashier warrants the conclusion in the absence of specific notice to the contrary that such was a practice of the defendants binding upon them in its results between them and third parties who are innocent holders for value." We look upon this decision as perfectly just when we consider the amount of business transacted through the medium of checks. A certified check passes at par between business men because it is usually considered that the cashier's certification is a surety bond against fraud and makes a check nominally as good as a bank note

In the local merchandise market, this has been a quiet day the only notable movement being in agricultural implements and even in this line sales have not been numerous, nor for large sums. Dry Goods and Hardware have been particularly quiet, there being no outside buyers in the market

PRODUCE—There is no movement in any article of produce, worth special mention. All prices are as before quoted. REPUBLICAN PLATFORM

The Union Republican party of Oregon in Convention makes the following declaration of its principles and policy

1st [illegible] the Union [illegible] first [illegible] unwavering fidelity to the Constitution [illegible] amendments and to the laws of our National Legislature

2d We wholly approve the principles and policy of the administration of President Grant as carrying out practical application the principles for which we have successfully striven. And we particularly commend those points in his Inaugural Address where he declares "let it be understood that no repudiation of one farthing of our public debt will be trusted in public places and it will go far towards strengthening a credit which ought to be the best in the world and I would protect the law abiding citizen whether of native or foreign birth wherever his rights are prejudiced or the flag of our country floats and I will have [illegible] against the will of the people"

3d We have confidence that the Administration will [illegible] to protect the interests and sustain the dignity of the Nation in respect [illegible]

4th We endorse all forms of repudiation as a [illegible] and the national honor requires the payment of the public indebtedness in the uttermost good faith to all creditors at home or abroad [illegible] according to the letter but the spirit of the laws under which it was contracted. And for this purpose we favor a strict economy in the Administration of the National Government and the application of such payment of all surplus revenue from whatever source derived and that taxation should be equalized and reduced as rapidly as the national faith will permit

5th We make no distinction between citizens, whether of foreign or native birth and that we sympathize now and ever with men of all nationalities struggling for self government

6th That we are opposed to any change in our naturalization laws which shall aim to [illegible] [illegible]

7th We favor [illegible] in order to [illegible] settlement of [illegible]

8th We are [illegible]

9th We favor [illegible] the people of those States lately in rebellion who have been [illegible]

10th We are in favor of [illegible] education [illegible] of this State to any [illegible] support of [illegible]

11th We [illegible] and [illegible] are the only true safeguards [illegible] and property. And with [illegible] we appeal to the voters of Oregon for their suffrages and support

WASHINGTON TERRITORY

For Delegate to Congress:

SELUCIUS GARFIELDE

Republican Platform

Adopted by the Republican Territorial Convention at Vancouver April 21st 1870

Resolved That the Republicans of Washington Territory are in full accord with the great Republican party of the Nation the party that maintained and carried the Government through the most powerful and gigantic rebellion known to history notwithstanding the aid and assistance rendered by enemies abroad and traitors at home; the party that successfully triumphed over the arms of the rebels at the South that removed the foul blot from the national escutcheon that disgraced us in the eyes of the civilized world, that sustained our financial credit beyond the hopes of the most sanguine that has shown a magnanimity and forbearance to the vanquished that challenges the admiration of mankind and that ever true to the best interests of the people has opened a highway for the interchange of products of the Eastern and West[illegible] that will long be marked as one of the wonders of the age

Resolved That we regard the administration of President Grant as eminently successful that the [illegible] questions which were presented by the [illegible] of eleven States at the close of the [illegible] have been settled in accordance with those [illegible] principles of justice [illegible] economy and we confidently look for a speedy harmonious and perfect restoration of the constitutional relations between all the States and the General Government

Resolved That the management of the finances by the Legislative and Executive branches of the Government by the present Administration has been wise prudent and careful and we refer with pride and pleasure to the fact that no financial convulsions have occurred that the credit of the Government has been sustained and that the relative value of specie and paper currency has approximated as rapidly as was consistent with the safety of the commercial and financial affairs

Resolved That the [illegible] [illegible] has already produced the most salutary results [illegible]

Dr Gibbon's Dispensary,

623 KEARNEY STREET NEAR COMMERCIAL

San Francisco. Established in 1854 for the treatment of Sexual and Seminal Diseases [illegible] Gonorrhoea Gleet, Stricture, Syphilis in all its forms [illegible] Weakness Impotence [illegible] Diseases [illegible] successfully treated

Horrible Diseases

How many thousands [illegible] both male and female [illegible] from the effects of [illegible] absorbed into the system! Look at their pallid emaciated and disfigured faces [illegible] broken-down constitutions disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians friends attend to those who are suffering with any of these horrible soul-destroying maladies, see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions the consequence of self-abuse. This solitary vice or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing with unerring certainty, the following train of morbid symptoms unless combated by scientific medical measures, viz Sallow countenance dark spots under the eyes, pain in the head ringing in the ears noise like the rustling of leaves and rattling of chariots uneasiness about the loins weakness of the limbs, confused vision, blunted intellect loss of confidence, diffidence in approaching strangers a dislike to form new acquaintances, a disposition to shun society loss of memory hectic flushes pimples and various eruptions about the face, furred tongue, fetid breath coughs consumption night sweats monomania and frequently insanity. If relief be not obtained should apply immediately either in person or by letter and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure. Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies should not forget the sacred responsibility resting upon them nor delay obtaining immediate relief.

DOCTOR GIBBON is responsible and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr Gibbon stating case, symptoms length of time the disease has continued and have medicines promptly forwarded free from damage and curiosity to any part of the country with full and plain directions for use for Ten Dollars sent in registered letter or through Wells Fargo & Co

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who with bogus sworn to certificates, dupe the unwary. Some of the self styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco and other places are tradesmen, and became too lazy to work at their trades. Some are tinners, shoemakers, newspaper carriers, intelligence office keepers etc. Look over the San Francisco Directory and you will not find their Medical Institutes but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing and may save you many regrets; for as advertising physicians in eight cases out of ten are bogus there is no safety in trusting any of them unless you know who and what they are. Dr Gibbon does not deceive people by exhibiting bogus titles, certificates pretended patient's letters etc. Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure
